

NAVY'S SKY GIANT SETS RECORD—THEN BREAKS IT

THE GIANT NAVY FLYING BOAT *Caroline Mars* set a passenger-load world's record for airplanes and then broke it. Here, the four-engine craft is shown after it arrived at the Alameda, Calif., Air Base from San Diego with 223 persons aboard—218 transferred Navy men and four crew men. This was less than three hours after it landed in San Diego from Alameda with 207 aboard. The previous high was 169 persons, carried by a twelve-engine German Dornier plane in 1929, in a flight over Switzerland. (International)

Kenyon College Fire Brings Series Of Heroic Stories; Six Missing, Two Dead

By Ken Davis

GAMBIER, Feb. 28.—(AP)—Kenyon college today listed six students missing in a million-dollar dormitory fire that killed two others and injured 28 yesterday. Firemen searched the ruins for bodies.

Towering above the helmeted searchers were the gaunt stone walls of "Old Kenyon." It was the oldest building on the campus of the school for men.

That was all that was left of a 122-year-old dormitory that housed 120 men. The four-foot walls of gray stone withstood three hours of fire that raged through "Middle Kenyon" and adjoining wings early Sunday.

The missing students were: Ernest Ahwajee of Akron, Ohio, 18-year-old sophomore and former tennis player at Akron West High school.

Albert J. Lewis of Hazelton, Pa. George Pincus of Brooklyn, N. Y. Stephen Shepard of New York. Colin Woodworth of Jamaica Plain, Mass.

Martin E. Mangie, 18-year-old son of a New York retail store executive.

The dead were: Edward Brout of Mount Vernon, N. Y., 19-year-old premedical student. He tried unsuccessfully to jump from the window of his room to a fire escape some feet along the wall and three stories up.

Mare S. Peck of Fenton, Mich. He died of burns in Mercy hospital at nearby Mount Vernon, O.

Two Others Hurt

Mercy Hospital reported two other men critically hurt. They were Jack McDonald of Hamilton, O., and Robert McFarland of Ames, Ia. McDonald has a fractured skull. McFarland was out and burned about the head and feet.

Saturday night was dance night at Kenyon college. Many of the boys donned stiff shirts and dress clothes. Students were in and out of historic "Old Kenyon" all evening.

By midnight the fun began to slacken. The boys began taking off over the grand staircase to their rooms. Many already were in bed. By

3 a. m. it was quiet. A cheery fire crackled in the great fireplace.

An hour later, fire was raging up the aged "Middle Kenyon" section. Officials believed a spark from the fireplace ignited a rug. For a few minutes fire fighters thought the flames could be contained within the fire walls separating the wings from the main part of the structure.

But the fire vaulted upward and

600 EXPECTED TO ATTEND EAGLES' MEETING HERE

About 600 delegates are expected to attend the semi-annual Zone Four conference of the Fraternal Order of Eagles, to be held here Saturday and Sunday, with Salem Aeris 316 serving as hosts.

Delegates from 26 aeris will be in attendance both days. A business meeting is scheduled for Saturday and the initiation of the conference class on Sunday.

Nationally-known leaders will speak and will be introduced by Rudolph Bertolini of New Philadelphia, conference chairman. Oscar Hedin of Canton is the zone director.

Registration of delegates will begin at 1 p. m. Saturday, followed by the business session. Harry A. Wood, past state president of the Pennsylvania Aeris, will be the featured speaker. A dinner, followed by dancing and entertainment, will be held in the evening.

A parade will be held at 1 p. m. Sunday, forming on E. Pershing and moving to Broadway, to E. State st. and to the Aeris home. The parade will be headed by the Quarter City American Legion band and followed by delegates and visitors.

The women's auxiliary, in session during the two days, will also participate in the parade.

The degree team of the Massillon Aeris will initiate the zone conference class after the parade. William Able of Barboursville, past state president of the Ohio aeris, will be the principal speaker at the Sunday meeting. A program of entertainment will follow.

Delegates will be present from 27 Ohio cities.

AUTO LICENSES ON SALE TUESDAY

Automobile license plates for 1949 will go on sale Tuesday and continue throughout the month, A. P. Morris, auto club secretary, announced today.

Owners will have until April 1 to procure their new plates. The 1948 issue will expire at midnight, March 31.

The new plates may be used immediately, Morris said.

They are black this year, with light yellow numerals, the reverse of the 1948 plates.

The plates are sold in Salem at the auto club office at 749 E. State st.

4TH PASTOR CONFESSES IN TRIALS

Rev. Georgi Chernov Tells Of Espionage Ordered By U. S. Britain

SOPIA, Bulgaria, Feb. 28.—(AP)—The fourth straight defendant in Bulgaria's spy trial of 15 Bulgarian Protestant clergymen pleaded guilty today as the hearing went into its third day in court.

He was Rev. Georgi Chernov, 46, balding Pentecostal pastor.

Like the others who preceded him on the stand, he launched into a long public confession of espionage for the United States and Britain.

Chernov had written a 150-page "confession" while in jail—the longest preliminary deposition taken from any of the defendants. All are charged with treason, spying and black market money dealings.

Chernov said he had been ordered to collect espionage by Cyril Black, former U. S. political mission secretary here. He claimed he had talked with Black during the period from November, 1944, to the middle of 1945.

(Black, now a professor at Princeton university, has denied the charges made by the Communist-dominated Bulgarian government, as have other Americans accused of complicity.)

American and British authorities in Sofia have rejected all charges made by the defendants in their court recitations. They said that some of the Americans and British mentioned in testimony were not even in Bulgaria at the time the pastors said in their confessions they talked with them here.

In numerous other cases, officials said, conversations between Americans and Bulgarian pastors concerned only generalities and had nothing to do with espionage.

Chernov testified he and other pastors had delivered information to America on Russian troop movements and on military and economic developments.

He said the Evangelical Church Council of Bulgaria gave orders through Protestant pastors to "praise everything American and slander all that is Russian."

The council is an organization of the Congregational, Methodist, Baptist and Pentecost churches in Bulgaria. Protestants are a small minority of 13,000 in Bulgaria's 7,000,000 population.

The three who pleaded guilty previously were Rev. Vasil Georgiev, a Congregationalist, and religious representative of the United Protestant church group; Rev. Yanko Nikolov Ivanov, a Methodist and Rev. Nikola Mihailov Naumov, a Baptist.

TWO INJURED IN ACCIDENTS; ROADS IN GOOD SHAPE

The accident toll on district highways was light over the weekend, as good driving weather prevailed. Only two accidents were reported by the state highway patrol, resulting in two injuries.

A car driven by Russell J. Anthony, 35, of R. D. 1, New Waterford, collided almost head-on with a tractor-trailer operated by William J. Wise, 35, of Maywood, Ill., on Route 14, near the junction of Route 170, at 12:35 a. m. Sunday.

The car was to the left of the center line at the time, the patrol said. The right rear of the tractor was damaged, along with the front of the car.

Anthony had lacerations of the lips and contusions of the forehead.

Fred L. Page, 28, of Youngstown told the patrol he fell asleep while driving on Route 62, three miles south of Canfield at 4 a. m. Sunday. His auto left the road on the left side and went into a ditch.

He suffered abrasions of the head and left foot and was treated at Salem City hospital.

The front and left side of the car was damaged.

SEE WEAKNESS IN DEFENSE DEPARTMENT

Hoover Commission Claims Military Control Is Dangerously "Loose"

WASHINGTON, Feb. 28.—(AP)—The Hoover commission today called the new unified national military establishment "perilously close to the weakest type of department" in the government.

The investigating commission deplored lack of civilian control by the President and defense secretary over the powerful military high command, the joint chiefs of staff.

It said there is "continued disharmony and lack of unified planning" in the supposedly "unified" department of defense; it found that the military is "far too free of civilian control; and it warned of "extravagance" and "waste" which could do serious damage to the national economy.

The 12-man bipartisan commission on government reorganization, headed by President Herbert Hoover strongly urged on congress six recommendations intended to remedy defects it found under the present unification law.

"There is evidence," it reported, "that the utmost that can be accomplished under the present statute will fall far short of national needs."

Most of the recommendations were aimed at concentrating greater control in the hands of the civilian Secretary of Defense (Secretary Forrestal, a member of the commission, took no part in preparing the report.)

Shows Immediate Need

But the group's final suggestion emphasized the need for immediate action on such things as "emergency plans for civilian and industrial mobilization," plans for civilian defense and "defenses against unconventional methods of warfare."

It laid considerable stress on the bad effect of "inter-service rivalries," commenting that they indicate a lack of understanding of the fact that military security depends upon cooperation and balance among the Army, Navy and Air force.

And what the commission said about the military establishment as a whole went especially for the joint chiefs, who include the chief of staff of the army and air force, the chief of naval operations and the chief of staff to the President.

Three of the four members are spokesmen for separate service arms, the report said. "The secretary of defense, and his viewpoint of the unified establishment as a whole, is not represented in their deliberations."

"At present outlook, the United States need for a strong military establishment is obvious," the report stated.

These were the commission's recommendations:

1. Give the Secretary of Defense full power over the defense budget including authority to give it a "major overhaul," and require the armed forces to keep "complete, accurate and current inventories."

2. Center all the reins of the defense establishment in the hands of the secretary of defense, stripping the Secretaries of the Army, Navy and Air of their power to appeal over his head to the White House.

3. Make the entire personnel system of all three services subject to the Secretary of Defense, every thing that is from recruiting and promoting uniforms to supervising military education.

4. Improve teamwork by developing better relations "at the working level" among such agencies as the joint chiefs on one hand and the central intelligence agency, research and development board and munitions board on the other.

5. Coordinate the medical department of the three services with other government health agencies as outlined in a report to come later.

6. Take "immediate" steps to prepare for civilian defense mobilization, and unconventional methods of warfare. On the proposed reorganizing the leadership of the joint chiefs, four of the members turned in a minority report saying the commission didn't go far enough.

They suggested a "chief of staff" to the joint chiefs, appointed by the President and responsible to the Secretary of Defense.

Salem Milk Prices To Come Down On Tuesday

The price of milk in Salem is expected to drop on Tuesday, according to a local milk dealer.

Household milk will be 20 cents a quart, and cream will be 25 cents a quart, the dealer said.

F.S. Barchkoff To Be Employed As Project Head

Questions of major policy were ironed out toward securing an adequate water supply for the city of Salem Saturday when council and city officials met with the Civic water committee at city hall.

Definite steps were outlined as a result of the joint session, which lasted more than three hours, and council indicated that it would take immediate action to put the estimated \$800,000 project into stages of actual development.

Council's water committee, Chairman Fred Koenreich said, will recommend at the regular Tuesday council session.

That F. S. Barchkoff, city engineer, be employed, at a rate of not to exceed two percent of \$800,000 (\$16,000), to supervise and engineer the long-term water supply program for the city.

This will be accomplished, as per a request from City Service Director F. K. Wilson to council on Jan. 18, by a change in the salary ordinance governing Barchkoff's rate of pay.

The Civic committee, through J. H. Wilson, president of the Manufacturers association, had asked council, the mayor, service director and engineer, into the extra-ordinary Saturday meeting.

After a report by Frank Wilson, service director, telling of plans to drill new wells within the next few weeks the two groups went into a detailed discussion of the proposed long-range program. This program will eventually supply Salem with water from a surface source.

Wilson said that after the well drilling, the pipe line required (a 12-inch line) could be installed quickly. He said the pipe would be available April 1 and by late June or July the line could be in if the wells warrant the extension. The over-all surface program, of course, is a plan which will require several years to develop in its entirety.

City Engineer Barchkoff outlined the studies that have been made on the available surface supplies and reported on findings he has made recently which may change the plans for the anticipated surface source. It was originally planned to get water to the west and south of the new reservoir.

Barchkoff reported that conferences with the state health department and combinations of studies already made here show that surface source is probably better and more extensive.

He pointed out that the over-all long range policy will be set by the course of the drilling for new stop-gap wells, which will alleviate the danger of the water shortage for this coming summer only.

Therefore, Barchkoff was particularly anxious to explain the entire picture to those gathered and secure an idea of the course desired before the stop-gap wells were drilled.

Wilson said the bids for drilling have been let and work will start within a week or two. If the stop-gap wells are productive enough, a fact which can only be proven by actual drilling, then the city will install a 12-inch pipe line to the new wells. Subsequently the city will continue to drill wells in the direction of the ultimate surface supply, extending the pipe line to the source finally to be developed.

The project to give the city a permanent surface supply (it is supplied entirely from wells now) will cost an estimated \$800,000.

Enthusiasm of this expense, Koenreich pointed out, can be done by issuance of water department mortgage revenue bonds, the sale to be carried out in a manner decided by the council.

Koenreich has gone extensively into the matters of financing and engineering on the project. He had written Barchkoff and Council member of Cleveland legal experts on

Now For The 81st

In Washington, where illusions about government are scarce, they're boarding up the windows for the beginning of Harry S. Truman's battle with the 81st congress.

All that has changed since the 80th congress is the number. Mr. Truman became president in the spring of 1945, during the 79th congress. He didn't like it. He didn't like the 80th. He doesn't like the 81st. And he probably won't like the 82nd.

He has run headlong into a barricade erected in the federal government by its founders—the division of authority between the chief executive and the national legislature. It was planned that way, to keep the executive and legislative power in balance. The supreme court also is part of the balance.

Every president since George Washington has run into the same barricade. And nearly all have rejected it, some belligerently, some philosophically. They have tried to bully congress and have been bullied in turn. They have plotted the destruction of the supreme court, but never with complete success. As Franklin D. Roosevelt discovered, the people are touchy about the court—touchier than they are about congress.

The executive always has the advantage. He holds the highest office and can speak as an individual. The legislators and judges are divided among themselves; as composite bodies they can't carry their fight to the country in a showdown. Yet, after 160 years, the odds are still in their favor. The United States is still governed under a system of balanced power. The president is still a long way from being the dictator many presidents have tried to be. And Harry Truman, who now has set out to castigate the 81st congress, isn't going to be allowed to forget that he was elected last November by less than half the ballots cast and therefore does not have even a theoretical claim to a mandate from all the American people.

The Judgment of Time

Robert E. Stripling, who has retired as chief investigator for the house un-American activities committee, cleared up many moot points in his articles about the Communist conspiracy in the United States.

Both Stripling and the committee are still in political controversy because of their activities. But the general public, which stood back of their investigations when powerful political figures were trying to wield the ax, is willing to let time judge who was right and who was wrong.

Stripling believes the Communist conspiracy has faded and will continue to fade the best ingenuity of the United States. He thinks the FBI could deal with the conspiracy if politics did not interfere. He thinks the house committee could have dealt with it better if politics hadn't interfered.

For reasons which still won't bear the light of day, the committee's efforts were blocked time and again by the White House itself—by Franklin D. Roosevelt when he was President and later by Harry Truman. Stripling admits the committee made mistakes—they were obvious—but almost single-handedly it weakened the country to the danger of the Communist conspiracy.

It isn't pleasant to imagine what things would have been like if the Communists and their political friends had been able to scuttle the house committee to investigate un-American activities. A public service was performed under some of the strangest circumstances ever to appear in the republic's history. The committee is still in existence. What it will do from now on is problematic. It has been captured alive by some of the same political elements which formerly tried to kill it outright.

Defaming American Democracy

There are some American officers in Germany who don't seem to have heard about Uncle Sam's democratic Army. They are the ones who voted over civilian opposition, to bar enlisted guests from their officer-civilian club in Berlin. The club couldn't even attend church services held in the club.

However, German frauleins are still welcome within the exclusive portals. And they will be protected from enlisted boorishness by these gallant officers—all of whom, we are sure, invariably conduct themselves like perfect gentlemen, in or out of their cups.

One lieutenant colonel, who said he would resign if soldiers were admitted, graciously offered to accept an 80 per cent of the enlisted personnel. But he added, "there are 10 per cent of enlisted men who do not know how to behave. We don't want these enlisted barbarians with officers and ladies."

We had always supposed that it was a function of officers to see that the men they commanded behaved decently, and to discipline them if they don't. It is 10 per cent of American citizens "barbarians," as charged, it would seem to reflect some discredit on their officers. Or maybe they find the barbarians' presence so distasteful that they can't wait to get close enough to them even to band them the works of Emily Post.

This display of snobbishness is certainly a wonderful way to advertise American democracy to the Germans. These who took part in it would look more natural, dressed as the uneducated, corrupted, drunken subjects of the late Kaiser's army instead of in the uniform of the country whose government promises that all men are created equal.

On the way we saw one military officer in Berlin have quite a talking about these officers. It would seem that the best they could do would be to transfer the offending and offensive lieutenant colonel back home, where he would only be giving the United States a bad name by his presence in the Berlin club.

we do know that Argentina, a big food producer, sat out the war and postwar selling its surplus victuals at extremely fancy prices.

Under those circumstances it would take a certain sort of genius to permit a country to go broke. But to President Peron nothing is impossible. With the able assistance of his senora, it may turn out that he has actually achieved this back-handed miracle of statecraft.

From The News Files

Forty Years Ago

Feb. 28, 1909

T. C. Fitzpatrick returned Saturday from Akron where he has been visiting for several weeks.

Plans are being made to raze the 50-year-old Methodist church on Broadway and a new modern building will be erected to accommodate the increasing congregation.

Frank Clets of the firm of Clets & Votaw has severed his connection with the firm, his interests being taken over by Frank Cypocok.

The residents of Fairfield and Middleton townships are endeavoring to secure an extension to the Y. & S. electric line from Columbiana to Middleton, New Waterford and East Palestine.

Elmer Windle has moved his household goods from Leetonia to his newly purchased property on E. Fourth st.

Sarah Fraser of Allegheny, Pa., left Monday for her home after spending a few days at the home of her cousin, Laura Cooper of E. Green st.

About 50 friends of Mr. and Mrs. Robert Zeller, recently married, held a housewarming for them Saturday at their home on Washington st.

Thirty Years Ago

Feb. 28, 1919

The name of Pvt. William Hall, son of Mr. and Mrs. Howard Scullion of E. Dry st., is among the list of slightly wounded contained in the latest casualty list issued from Washington.

Former Mayor A. E. Christopher of Lisbon has purchased the Bonnell farm on the Salem-Lisbon rd. Members of the Lincoln club met Thursday with Mrs. Richard Gardner on New garden st.

Mrs. Walter Davidson has gone to Steubenville to spend a few days with relatives.

Mrs. Edna Pearson of Pittsburgh arrived Thursday to spend a few days as guest of Ruth Anderson of E. Seventh st.

Ralph Shapnack, W. J. Moore and C. J. Campbell left today for New Kensington, where they will be employed at The Herald Publishing company.

Twenty Years Ago

Feb. 28, 1929

Mrs. Leroy Fisher of Los Angeles, formerly Leora Burns of Salem, was seriously injured recently in an auto accident there.

Kather Bricker and Wanda Matthews won the card prizes when the Blue Monday club met at the house of Louise Himmelsbach at her home on Roosevelt ave.

To make happy her birthday, a group of friends of Mrs. Adelaide DeRhodes carried out a surprise for her Monday at her home on Garfield ave.

Allen Moores who is training for a nurse at St. Luke's hospital, Cleveland, spent the weekend with her parents, Mr. and Mrs. Carl Moores of W. Seventh st.

Mrs. Lottie M. Randolph of New Lexington and Guy Miller of Columbus gave main talks at the opening session of the Salem Farmer's institute Wednesday.

Seventy-five members of the Salem Business Bureau and guests attended a special dinner meeting at the Memorial building Tuesday.

C. G. Burton, president of the National Sanitary Co., spoke at the Rotary club meeting Tuesday.

John Howell of Bozeman, Mont., is visiting his brother, Curtis Howell for the first time in 48 years.

The Stars Say

For Tuesday, March 1

By GENEVIEVE KEMBLE

WHILE the day seems to move on with promise and the promotion of great expectations involving prestige, finances and affectional or romantic gratifications, suddenly, like a bolt from the blue, comes an unforeseen commotion setting aside, for the moment, the fulfillment of all desires, plans and aspirations.

It might be just as well to prevent wear and tear of nerves and emotions by relaxing and seeking diversions, until the astral situation blows over. Make no major changes.

For the Birthday

Those whose birthday it is may view from affairs a growth of scope, expansion, fulfilled wishes, in finances, resources, career and enhanced popularity and prestige.

While such objectives seem to have every promise of attainment, a sudden event or incident is likely to upset plans and turn brilliant promises into dead sea fruit. It might be as well to make the best of current opportunities, and tackle the problems of grasping the expanding field of operation. While deferring active work it may be desirable to seek emotional relaxation and diversion in romantic, creative or other purely personal pastimes and entertainments. Defer important changes until stability be restored.

A child born on this day, while having fair prospects for success and happiness, may be subject to sudden reversals or upsets. It is advised to make decisions with prudence.

ONE MAN'S OPINION

BY WALTER BURNAN

Harry is anxious to get going on that motorcycle trip. He has three miles left over from the last one started.

No date has been set for the time his motorcycle is certain it won't be on the "Bicycle" trail.

Some don't see the wisdom of a road trip without a motorcycle, but Harry says he's got what he needs on him when in Washington.

The last time he traveled coast-to-coast was to say "Hi" to his folks. Now he's going back to say "Hi" to his folks.

This may mean that Margaret may have to give up her riding around again. Unless, of course, Harry is an expert on the subject of riding.

But it will be kind of fun to see the same crowd that Harry saw in Washington.

are many structures which may be involved when headaches occur, and that there are many possible causes for head pains. The only way in which these headaches can be completely eliminated is to find the cause and get rid of it.

QUESTIONS AND ANSWERS

B. A.: Will you please tell me

Answer: The injection treatment for varicose veins is suitable

under proper conditions. In other circumstances, simple support with elastic stocking or bandages is sufficient. In still other cases, surgical removal is necessary.

You should consult your own physician concerning the most suitable treatment in your case.

BELIEVE ME—if you are tormented with indigestion, gas, bloating, heartburn, gastritis, burning sensation, nausea or sour stomach caused by excess stomach acidity, what quick relief you can have by taking the old reliable Von's Famous Pink Tablets. Get Von's Tablets at your drug store today. YOU'LL BE SURPRISED.

Paid Bonds, Levies To Ease County Tax Rates

LISBON, Feb. 28.—The real estate tax picture may be somewhat lessened in Columbiana county next year with city bond issues expiring in Salem and Wellsville, and in East Palestine the city swimming pool bond, and the Lisbon school bonds will be retired this year, a survey of the tax duplicate today by County Auditor Irvin J. Vorndran reveals.

The county's levy for tuberculosis and child welfare also expire this year, and it is probable the county commissioners will ask voters to again approve the levies, which at present are 30-mill for tuberculosis, and 40-mill for child welfare.

Levies for operating purposes will also expire in five school districts this year, namely: Salem city, 1½ mills; United Local, 3-mills; Knox township, 3-mills; New Waterford, 4-mills, and Unity, 3-mills.

Convinced of Guilt

LORAIN, Feb. 28 — Detective Lieut. Vernon M. Smith said yesterday he was convinced Sam Cimesa murdered his wife Jan. 5 and committed suicide—and that he considered the case closed.

Cimesa lived about 48 hours after his wife was shot and before he lapsed into a coma told police that masked men invaded his home and shot them both.

Every home needs a television set.

Pamper your Buick?

You bet we do!

You touch the starter—and your car awakens with an expectant purr. You touch the gas treadle—and off you sweep, on a wave of buoyant power. Minutes, miles tick past, with a lift in every one of them . . .

A dream, you say?

Not for a Buick. Not for your Buick, if it's kept always at its brilliant best—by Buick specialists!

We have nothing but Buick specialists in our service department—men who know the belt and feel of every wire, washer or welder under a Buick hood, without looking.

When they do a tune-up or repair job on your Buick it's more than just a scientific, thoroughgoing, conscientious piece of work. They'll baby it a bit—and on the road you'll feel the difference in their craftsmanship touch.

This priceless kind of care costs you not a penny more. In the long run—by keeping your Buick always a Buick—we save you money!

HOW WELL CAN YOU SEE?

Headlights dim or discolored? Let us give you safer, later night driving with a new pair of low-cost sealed beam units.

In addition, we'll line up the headlamps—check generator-charging rate—inspect voltage regulator—clean battery terminals and cables.

Buick one keeps Buicks best

Weddings Highlight Social Calendar Over Weekend

Laughlin-Tinsley Wedding Event In Presbyterian Chapel

Miss Dora Laughlin and Jack Martin Tinsley exchanged their marriage vows at 3 p. m. Saturday in the Presbyterian Upper Room chapel. Rev. Louis Raymond, pastor of the North Jackson Federated church officiated in the impressive double ring ceremony.

F. K. Laughlin, father of the bride, escorted her to the altar, and a few friends and relatives of the couple witnessed the wedding. Ice blue tissue crepe fashioned the bride's frock, while navy accessories and a gardenia corsage complemented her costume. Her pearls were a gift of the groom. For "something old" she wore a ring that belonged to her grandmother and "something blue" was a ribbon from her mother's wedding gown. The couple were attended by her brother and wife, Mr. and Mrs. Robert H. Laughlin of Chicago. As a matron of honor Mrs. R. H. Laughlin was dressed in gold motif taffeta with brown accessories. Her corsage also was gardenias.

Mother In Green, Black
For her daughter's wedding, Mrs. P. K. Laughlin chose green crepe with black, and a corsage of gardenias. Mrs. Mabel Tinsley, mother of the groom, complemented her navy blue dress with a yellow rose corsage. Her accessories were black.

Throughout the ceremony, the refrain, "Oh Perfect Love" was played by Miss Marguerite Vincent. "At Dawning," "Oh Promise Me," "Because" and "I Love You Truly" were heard in the pre-nuptial recital and the traditional marches heralded the wedding party.

After the ceremony, a reception was held in the home of the bride's parents on E. Fourth st.

The bride opened her many gifts, after which she and the groom cut the three tiered cake. A tiny bride couple beneath a wedding bell was the symbolic topping. A yellow daffodil and white snapdragon arrangement with yellow candles on either side, made the refreshment table attractive.

Miss Elizabeth Dales served the cake to the guests and Mr. Laughlin, the best man, had charge of the guest register.

Out-of-town guests included Miss Jean Welsh and Jack Buckley of Pittsburgh; Mr. and Mrs. Richard Beckler of Lake Milton, brother-in-law and sister of the groom; Miss Marie Hamilton of Beaver, Pa., aunt of the bride and others from Lisbon and Salem.

They will honeymoon for a week in Cleveland and Niagara Falls, after which Mr. Tinsley will resume his studies at Alfred University, Alfred, N. Y. His bride will continue her employment with the department of agriculture in Lisbon and will join him later.

Both are graduates of Salem High school. He saw four years

service in the navy while his bride was in the WAVES for two years, serving with the bureau of personnel.

Mr. and Mrs. P. K. Laughlin of E. Fourth st. are parents of the bride while Mrs. Mabel Tinsley of E. State st. and Kenneth Tinsley of Lake Milton are parents of the groom.

Dinner-Dance Enjoyed By Mothers Club

The sweetheart dinner-dance given by members of the Progressive Mothers club for their husbands was an enjoyable event of Saturday evening at the Elks home, Alliance.

Dinner was served at a U-shaped table charmingly appointed in a blue and silver theme. A pair of figurines attired in blue on a platform of blue and silver formed the centerpiece. Silver place cards were heart-shaped and the places were marked with novelty favors. Bouquets of blue iris and yellow daisies in silver bowls added a touch of springtime gaiety. The table was lighted by white tapers in silver holders. Tapers were tied with ribbon in the predominating tones.

A tour of the building and television entertainment occupied an informal social period, following the dinner.

Mr. and Mrs. C. L. Dickey received a special prize.

The dance program was from 10 to 1 a. m.

Guests were Mr. and Mrs. Francis Horning of Salem, and Mr. and Mrs. Edward Langton and Mr. and Mrs. Paul Smucker of Orrville. Mrs. Smucker is a former member of the club.

Also in the company were Mrs. Hugh Keils and Mrs. Thomas Crothers, new members, and their husbands.

Committee on arrangements included Mrs. Don Smith, Mrs. Dickey, Mrs. Duane Osborne, Mrs. Carroll Greene and Mrs. James Griffin.

The March 3 meeting will be at the home of Mrs. Richard Albright, E. Ninth st.

Callahan-Lutsch Wedding Friday Event At Church

Candle-light illuminated the Upper Room chapel in the Presbyterian church, where Mrs. Joyce Callahan and William Lutsch exchanged their nuptial vows at 3 p. m. Friday in the presence of their families and a few friends.

Rev. R. J. Hunter, pastor of the First Baptist church, officiated in the double ring service while the bride party stood in front of an attractive setting of ferns and white snapdragons and white gladioli.

The pre-nuptial music included piano selections by Miss Anna Cook, and two vocal solos. "Always" and "I Love You" by Mrs. Walter Hofmeister, accompanied by Miss Cook. Charming in a poudre blue chiffon velvet street-length dress, fashioned with a high neckline, long sleeves and a peplum which ended in a bow in the back, the bride wore a rhinestone necklace and earrings, gift of the groom. Her accessories were grey. She carried a white Bible topped with an orchid and showered with white ribbon.

Bradley's Are Attendants

Mr. and Mrs. Paul R. Bradley were attendants. Mrs. Bradley's lovely dress was designed of peacock blue chiffon velvet and she wore a rhinestone necklace, the bride's gift. She complemented her dress with brown accessories and carried a bouquet of pink roses.

Mr. Bradley received a billfold from the groom.

A reception was held at the bride's home, Newgarden rd. A two-course lunch was served from a table centered with a decorated tiered wedding cake and trimmed with white candles in crystal.

White flowers were used effectively in the home.

Twenty-five relatives and friends from Salem and vicinity attended. The bride is the daughter of Mrs. John Berk, Newgarden rd.

Mr. and Mrs. Lutsch are graduates of Salem High school. He is a World War II veteran.

After a honeymoon trip, the couple will reside on the Newgarden rd.

For traveling the bride wore a royal blue three-piece suit, with grey accessories and an orchid corsage.

Mrs. Moore Hostess To Garden Club

Mrs. Russell Moore of 1113 Franklin st., will be hostess to members of the Garden Study club at 8 tonight. The meeting was previously planned for the home of Mrs. Dana Fieding, S. Lincoln ave.

Mr. and Mrs. Joseph Marino and sons, Michael and Joseph, Jr., of Akron, and Mrs. Roy Reading of New Haven, Conn., were Sunday guests of Mr. and Mrs. Daniel Marchbank of Jennings ave. The Marchbanks and their guests also visited at the home of Mr. and Mrs. C. M. Marchbank of Hanoverton. Marchbank is recovering from a stroke of paralysis.

Rev. Charles E. Berchold, missionary at Tame, Columbia, South America, was a guest Sunday of his uncle and aunt, Mr. and Mrs. W. E. McKensie, E. State st. He is en route to Miami, Fla., from where he will fly to Tame.

Paul Ryser, student at Cleveland Bible college, was home for the weekend. He is the son of Mr. and Mrs. Ernest Ryser of R. D. Salem.

C. E. Stanley of Jennings ave. is visiting his three children, student at Barnesville Boarding school.

Mr. and Mrs. W. R. Smith of W. Euclid st. are on a vacation trip to New Orleans, La., and Florida.

Mr. and Mrs. George W. Hunn of Cleveland st. left today for Florida on a vacation trip.

Miss Esther Hagerty Wed To John Heinze Saturday

Attired in a charming bridal gown of white slipper satin, Miss Esther Hagerty, daughter of Mr. and Mrs. F. K. Hagerty of East Palestine, was married to John Heinze, son of Mr. and Mrs. Albert Heinze of Leetonia, at 3 p. m. Saturday in the home of Miss Mary Elizabeth O'Neill of E. Fourth st. Rev. Thomas Laughner, pastor of the Leetonia St. Paul's Lutheran church, performed the double ring ceremony in the presence of the immediate families of the couple.

Just before the ceremony, Miss Betty Wright sang, "I Love You Truly" and "Because," with Miss O'Neill as the accompanist.

As the bride came down the stairs with her father, who gave her in marriage, Miss O'Neill played The Bridal Chorus from Lohengrin. During the exchange of vows the couple stood in front of the fire place. On the mantel was a lovely arrangement of schrantheus and on either end were white candles in silver candelabra.

Gown Extraordinary
The bride's gown was fashioned with a small Chinese collar, fitted bodice, long sleeves pointed at the wrist, and a full bustle back skirt with a bow on the bustle and a brush train. Her finger-tip veil fell from a satin tiara ornate with a design of pearl beads. She carried a white prayer book topped with an orchid and showered with schrantheus.

Miss Jean Hagerty was her sister's maid of honor. She wore an

attractive yellow marquisette gown and completed it with a yellow shoulder length veil held by a silver clasp. Her bouquet was of pansies. She wore a rhinestone necklace and earrings, the bride's gift.

Blaine Heinze of Leetonia was his brother's best man. He was remembered with cuff links.

Mrs. Hagerty chose for her daughter's wedding an all-black outfit and wore a corsage of red roses.

Mrs. Heinze used black accessories with a dusty rose dress and a corsage of carnations and rosebuds.

A reception at 3:30 was attended by approximately 75 relatives and friends. An all-white theme was used in the beautiful appointments on the refreshment table, which was centered with a three-tiered wedding cake topped with an ornament.

When the couple left on a honeymoon trip to Washington, D. C., the bride was wearing a brown suit, with light tan accessories, and an orchid.

The bride is employed in the traffic department of the Bell Telephone Co.

A World War II veteran, the groom is employed temporarily as a truck driver.

Mr. and Mrs. Heinze will reside at 383 E. Fourth st.

Mrs. Frank Lutz of Superior ave., Misses Helen and Kathryn Kaley of Jennings ave., are vacationing in Florida.

Boudreau Expects To Utilize Youngsters In Spring Games

Will Give Old Timers Of Thirties Less Hard Action

TUCSON, Ariz., Feb. 28—(AP)—As the World Champion Cleveland Indians prepare to open spring training here tomorrow, Manager Lou Boudreau let it be known he wouldn't be too tough on the old-timers.

The rookies and the newcomers will see most of the exhibition action and heavy work, while the veterans round into condition somewhat less strenuously.

Speaking for himself, and older who'll hit 32 next summer, and for Ken Keltner, 32, Mickey Vernon, 31, and Joe Gordon, 34, the shortstop manager said:

"We'll be doing well enough to play the whole season, let alone 38 straight days of exhibition games. As long as we've got new fellows to fill in, especially those whom I'd like to take a look at, the rest of us will take it easy."

Besides his thirtyish infield, Boudreau intends to use Catcher Jim Hegan lightly on the grapefruit circuit. Hegan, says Boudreau, is "still young (29) and strong, but I don't want to use him any more than I have to so as to avoid injuries."

"The others — Gordon, Keltner, Vernon and myself, will need as much strength as possible when the season gets underway. I don't mean that we may not be able to go another full season. I think all of us can, but it would be wise to take it as easy as possible at the start."

Boudreau said he believed the Indians had been strengthened more

OHIO CONFERENCE TO HOLD TOURNEY AT SPRINGFIELD

O. Wesleyan, Muskingum, Kent State, Akron To Meet In Competition

By FRITZ HOWELL
Ohio AP Sports Editor
COLUMBUS, Feb. 28 — (AP)—Ohio Wesleyan, Muskingum and Kent State, the 1-2-3 teams in the Ohio conference standings, will fight it out with seventh-place Akron March 11-12 for the league championship in the loop's first basketball title tourney.

The two-day classic is booked at Wittenberg's field house in Springfield. The committee which named the four competitors at a Mansfield meeting yesterday will meet tonight at Mt. Vernon to make the first round pairings.

A few squawks may be heard from Otterbein, Marietta and Kenyon, all of whom finished ahead of Akron in the league standings, over the selection of the Zippers for the four-way fight. Marietta, especially, might have a talking point if the Pioneers repeat their early-season victory over Ohio Wesleyan this week, knocking the Bishops out of the season's title.

Akron has won three and last three in the league, while non-chosen Otterbein has a 9-5 record, Marietta 5-4 and Kenyon 6-5. Wesleyan has 11-2, Muskingum 15-3 and Kent State 5-2. Akron has been beaten by Muskingum and Kent State of the tournament teams, and also suffered an upset loss to Wooster's Scots who finished with 6-7.

Muskingum has the state-wide laurels wrapped up on a percentage basis, having finished the regular all-games season with 18-4, a record the others can't match in the 25 remaining games.

The Mid-American conference is almost certain to wind up in a deadlock between Cincinnati and Butler, the Queen City Bearcats banging into a share of the top spot with a 49-44 win over the Bulldogs last week at Cincinnati. Each team has a game to play.

Ohio teams played 22 games with out-of-state foes last week, winning 13 and losing nine for a season mark of 143 victories and 124 defeats in interstate play.

On the national front the Buckeye clubs are faring well. Kenyon's elongated Epke Rixey is ninth in the country's individual scoring averages with 21.6; Muskingum's Bill Ruby has made 110 of 211 shots from the field for a 52.1 percentage, second highest in the land; the Muskingum team is second in the

MATADOR BARELY DODGES DEATH

IN THE BULL RING it's the job of the matador to deftly dispense with the onrushing bull, but in this scene from Mexico City, Mexico, a thrill-hungry mob has been treated to a scene of horror. At bottom, the matador has been gored by the infuriated animal and, at bottom, lies unconscious. However, he miraculously escaped death.

KENTUCKY "IN" FOR BOTH NCAA, NIT TOURNAMENTS

Seek Revenge Over St. Louis and Title Defense In Other Event

NEW YORK, Feb. 28—(AP)—Kentucky's mighty Wildcats today appeared to have a clear path to both the National Invitation and NCAA post season basketball tournaments.

Kentucky, overwhelmingly voted the No. 1 team in the country in the latest Associated Press poll, is a cinch for a bid to the invitation. It starts March 12 in New York's Madison Square garden.

The Wildcats probably will accept, since it will give them the only chance to avenge their lone defeat of the season. St. Louis, defending invitation champion, beat Kentucky 42-40, in the Sugar Bowl finals. And St. Louis will be back.

Kentucky also is interested in the NCAA merry-go-round in which it is the defending champion. Any doubts that it would be welcome in the NCAA if it played in the NIT apparently were dispelled by A. K. Tebell of the University of Virginia, chairman of the NCAA district three selection committee.

Said Tebell: "As long as Kentucky shows up for our tournament—if it's asked—I don't think it's any of our business what it does before or after."

Utah in 1944 played in both tournaments.

Kentucky ended its eighth unbeaten Southeastern conference season Saturday night by trouncing Vanderbilt, 70-37, for its 25th victory against the single loss. The Wildcats still have to get through the conference tournament starting Thursday before they can be considered officially by the NCAA.

Charles, Maxim Battle Will Use K.O. Rule Seldom Seen

CINCINNATI, Feb. 28—(AP)—Ezzard Charles and Joey Maxim meet in a 15-round heavyweight elimination bout here tonight under a knock-down rule seldom, if ever, used in a match of such importance.

The rule provides that the knocked-down boxer, if badly hurt, must take a count of nine. Should he rise in a befuddled state before that time, the referee will prevent his opponent from tearing into him immediately with a finishing punch.

Al Bethold, chairman of the city boxing commission, said it will be up to the referee to determine if the fighter may continue before nine seconds have been pounded off.

The rule was adopted some time ago, after several fatalities had occurred in the ring in other parts of the country.

The fight between Charles, who is a Cincinnati boy, and Maxim, from up Cleveland way, has been boosted as the one which will determine an opponent for Joe Louis in his next defense of the heavyweight championship.

It will be Charles—about the hottest heavyweight contender of the field—who will be taking the big chance tonight.

A loss to the clever but light-hitting Maxim will throw him back even with the other challengers. His most recent outstanding victory was a knockout in Madison Square garden over Joe Baki.

Louis has said that he might fight the winner of tonight's bout some time during the summer. Sam and Benny Becker, promoters of the show tonight, have offered the champ \$400,000 and other concessions to meet the victor in an outdoor show this year.

It will be the third meeting between Charles and Maxim. Charles won the decision in each of the other bouts, both of which took place six years ago.

MacAfee Finally Wins Individual Title In League

PHILADELPHIA, Feb. 28—(AP)—The Chicago Bear George MacAfee has been an outstanding back in the National Football league for five years but it wasn't until last season that he finally won an individual title.

Official statistics released by the NFL today disclosed that the Fleet MacAfee was punt return champion for 1948 succeeding Walter Slater of Pittsburgh who retired last fall to enter the coaching field.

The former Duke university player returned 30 punts for 417 yards, including a 60-yard touchdown gallop. MacAfee averaged 13.9 yards per return.

Jerry Davis of the Chicago Cardinals finished runner-up to MacAfee with 16 returns for 334 yards and an average of 20.9 yards. Davis, a first year player from Southeast Louisiana college, scored two touchdowns after receiving booted balls and his 70 yard sprint for a six pointer was the longest in this category for the 1949 NFL season.

Les Horvath of Los Angeles and formerly of Ohio State, finished in third position, followed by Bosh Prichard of Philadelphia. Charley Triplet of the Cardinals and 64 other players.

Middlecroft Wins Rio Grande Event

HARLINGTON, Tex., Feb. 28—(AP)—Handsome Cary Middlecroft, who left a career in dentistry for golf's tournament trail, nears the end of his trial period pretty well convinced that he won't have to return to the business of extracting teeth.

In March of 1947 when the Memphis, Tenn., links star turned professional, he said he'd make the tournament circuit two years and if at the end of that time he was convinced he could not be one of the top three players in the country he would return to the dental profession.

Yesterday, the tall, black-haired 28-year-old won the \$10,000 Rio Grande valley open with a 17-under par 267 for 72 holes, finishing ahead by two strokes in a dramatic fourth place among the money-winners of golf.

Closing out in second place was big Bob Hamilton of Landover, Md., who shot a 68 on his final round and had a 72-hole total of 269. E. J. Harrison of Little Rock wound up third with 270 on the strength of a 67 on his final 18 holes.

Bishops To Play Army

DELAWARE, Feb. 28—(AP)—Ohio Wesleyan university will meet Army Sept. 29, 1951, in its first football game with the West Pointers since 1923.

The university said approval of the game, which will be played at West Point, is expected from the Wesleyan board of trustees Thursday.

IM OFF TO SCHOOL, BOOTS!

G'BYE, DEAR!

WELL, IT'S BEEN A TIGHT! THE RESULTS ARE WORTH IT, THOUGH!

THERE CERTAINLY IS A MARVELOUS IMPROVEMENT IN PUG'S APPEARANCE THESE DAYS.

BUT ARE YOU A MESS!

MAMA, CAN A GIRL TELL WHETHER A MAN WILL BE A GOOD HUSBAND OR NOT AFTER THEY MARRY?

SURELY—IF HE LOVES HER AND IS KIND AND UNDERSTANDING

CAN SHE TELL IF HE'LL MAKE ENOUGH MONEY TO TAKE CARE OF A FAMILY?

YES—IF HE'S AMBITIOUS AND INDUSTRIOUS

CAN SHE TELL IF HE'LL HELP HER WITH THE DISHES AFTER THEY MARRY?

NO, DEAR THAT'S JUST A GAMBLE

NIP UP, CATBY... WE'RE LATE!

EACH MORNING SHE STOPS AN' PACKS EVERYTHING SHE'S NOT WEARIN'!

YOU WOULD TOO, IF SOMEBODY WAS COMING ANY DAY TO TAKE YOU TO YOUR DADDY IN AMERICA!

BUT CAPT'N EASY'LL GIVE YOU TIME TO PACK, SIMPLE!

IT WOULD BE RUDE TO KEEP HIM WAITING.

WHILE EASY, FACED WITH THE TASK OF TELLING CATBY HER DAD CAN'T GIVE HER A HOME AFTER ALL YEARS THE ORPHANAGE, RELUCTANTLY.

BLAZES—ID RATHER BE HORSEWHIPPED...

THE GUMPS

ANDY GUMPS: I'M A GUMPS!

STANLEY GUMPS: A WOMAN! I'M A GUMPS!

Will Issue Uniforms

Members of the American Legion and Quaker City band may draw uniforms for the Thursday evening concert at the new Legion home any night this week after 7:15.

Collision Reported

A car driven by Claxton M. Lyle of R. D. 4, Salem, collided with a parked auto owned by Walter H. Pilmer of Alliance at the corner of State and Ellsworth at 11:30 p. m. Saturday.

Lyle attempted to make a left turn onto Ellsworth and hit the front of the Pilmer car. Damage was slight to both.

Eugene Killin of 272 S. Broadway told police that a car hit the rear of his auto, which was parked in front of his residence, at 2:45 a. m. Sunday. The car did not stop after the mishap.

Killin's car was badly damaged.

School Eye Exam Thursday

An eye examination clinic will be held Thursday in the sixth, seventh and eighth grades at Fourth Street school.

The student council of the school, and its advisor, Mrs. Bess Cline, will assist with the work, after which the school nurse will recommend the findings to the parents.

Model Club Inspects Quarters

Possible quarters for the operations of the local Model Railroad club will be inspected this week, according to plans made yesterday at the club meeting at the Grate Co. office.

Harold Hannay, who was in charge of the meeting, said that as soon as quarters can be secured, laying of track and building activities will be started.

Jamboree Show Tonight

Entertainers from Radio Station WWSA's Jamboree show will appear in a Veterans of Foreign Wars benefit program at 8 o'clock at the Memorial building.

Proceeds will aid the V. F. W. post's athletic fund, according to Committee Chairmen A. B. Combs and Ralph Moffett.

In University Band

June Wolford, student at Bob Jones university, Greenville, S. C., has been made a member of the University Training band, which is directed by Frank Bradshaw, formerly of Akron. Miss Wolford is the daughter of Mr. and Mrs. C. R. Wolford of N. Elsworth ave.

Lions Hear Water Panel

A panel composed of Mayor R. R. Johnson, City Engineer F. S. Barckhoff, and Service Director F. K. Wilson will offer information and answer questions on the Salem water problem at the Tuesday evening meeting of the Lions club in the Lape hotel.

Fire Damage Light

Little damage resulted in a fire at 225 W. State st. at 9:15 p. m. Saturday when curtains in the Olive Miller home were ignited.

A fire at 748 S. Lincoln ave. was extinguished at 7:55 a. m. today. A break in the gas line of a stove caused the blaze.

In College Quartet

Leslie Burlick student at the Cleveland Bible college, formerly of Salem, has been made a member of the college Men's quartet, which sang at Sunday services in Beaver, Pa.

Fender Skirts Stolen

Two fender skirts were stolen from a car owned by Robert Dressel of 1158 Oak st. between 10 and 10:30 p. m. Saturday, police reported. The vehicle was parked on N. Lincoln ave.

Mary and William A. Powers vs. William P. Feazel, et al, Middleton twp.; action for money judgment, \$4,911.81.

Eva Little, also known as Evelyn Little, Lisbon, R. D. 4 vs. Vernon Little, Sr., Beaver Falls, Pa.; action for divorce, extreme cruelty.

L. Gibson, also known as Roy Gibson, Lisbon vs. Charles Butler, et al, Rogers; action for money judgment in the sum of \$1,043.98 with interest.

J. Howard Crosser, et al vs. Russell Cehrs, Lisbon, R. D. 4; action for money judgment in the sum of \$1,320.28.

Morton J. Siegel, et al, New York City vs. Wayne A. Sidinger, doing business as City Tire & Sport shop, Salem; action for money judgment, \$393.05 with interest and costs.

William Eugene Young, Salem, vs. Lillian B. Smith and Mary M. Harshman; action on cognovit note.

Elsie Delrick vs. George Y. Delrick, Wellsville; action for divorce, alimony and restraining order; extreme cruelty and gross neglect.

Leetonia Boosters Set March Activity

LEETONIA, Feb. 28—The Community Boosters club will hold its March meeting at the City building Wednesday at 8 o'clock. Members are urged to attend as plans for the 1949 homecoming will be discussed.

Fritz Heisler, guard coach of the Cleveland Browns, has been invited to make a personal appearance at an open meeting at the high school building on March 23.

Will Sell Plates

Daniel K. Crawford has been appointed deputy registrar to serve in issuing 1949 auto license plates. Beginning Tuesday, March 1, Crawford will have his headquarters at Klebers store, corner Main and Walnut st., daily except Sunday from 9 to 5 p. m.

Mr. and Mrs. Andrew Berry of Youngstown are making an extended visit with their brother and sister-in-law, Mr. and Mrs. Walter F. Riley.

OBITUARY

CHARLES J. LABER
EAST PALESTINE, Feb. 28—Funeral service for Charles J. Laber, 73, of 573 W. Martin st., former Leetonia mayor here, who died Saturday, will be held at 2 p. m. Tuesday in the Van Dyke funeral home.

Laber had served as president of council and was advanced to mayor in 1927 at the death of Miss Clara Morrow who was Democratic mayor then. He was later elected mayor for another two year term. He was a charter member of the local union of the National Brotherhood of Operative Potters and had been a kiln place in local potteries for more than 50 years, until he retired three and one-half years ago.

He was a potter first in the old China Co. plant, East Palestine's first pottery, and later was a kiln place in the W. S. George Pottery Co. plant.

Laber also served several years as a member of the board of trustees of the local police pension fund, was a member of the Methodist church and a former member of the Odd Fellows and Knights of Pythias lodges.

A son of Henry and Catherine Casper Laber, he was born Nov. 30, 1875, in Youngstown and had lived in East Palestine for about 70 years.

Besides his wife, the former Emily Southward, whom he married in 1897, he leaves a son, Harry S. Laber, principal of the local high school, two daughters, Mrs. Esther Beard of Wyandotte, Mich., and Mrs. Ruth Smith of Cleveland, two sisters, Miss Mary Laber and Mrs. Anna Gee of East Palestine, five grandchildren and one great-grandchild.

DAVID HART
David Hart, 43, who operated the North Jackson Automobile Service, died of a cerebral hemorrhage at 2 p. m. Sunday. He was enroute to North Side hospital, Youngstown, when stricken.

A son of Mr. and Mrs. Schuyler Hart of North Jackson, he was born in Wayne county. He had spent most of his life in North Jackson and was widely known in that district.

He was a member of the First Federated church, North Jackson, and the Masonic fraternity at Canfield.

Besides his parents, he is survived by his wife, Hazel; one sister, Lucy, teacher in the North Jackson schools, and one brother, Jesse, of Youngstown.

Funeral service will be held at 2 p. m. Wednesday in the First Federated church in charge of the pastor, Rev. Louis Raymond. Burial will be in the North Jackson cemetery. The body will lie in state at the church from 12 until the funeral hour.

Friends may call Tuesday evening at the Williams funeral home, Canfield.

MRS. WILFRED BREAU
Mrs. Dessie M. Breault, 37, of 558 Bank st., died of complications at 2:45 p. m. Saturday at her home. She had been ill for four months.

Born in Flemington, W. Va., April 7, 1911, she was the daughter of Richard and Octavia Marple. She had lived in this community since 1926 and was a member of St. Paul's Catholic church.

Survivors include her husband, Wilfred, four children—Wilfred, Jr., William, Algie and Yvonne at home; brothers, Homer, Milton and Carson Marple of Salem; sisters, Mrs. Ruth Sandy and Mrs. Mary Exline of Salem; and her father, Richard Marple of Brownstown, W. Va.

Funeral service will be held at 9:30 a. m. Wednesday at St. Paul's Catholic church in charge of Rev. Fr. Richard Gaffney with burial in Grandview cemetery.

Friends may call Tuesday evening at the Memorial.

KENYON

(Continued from Page One)

hollering "fire" both inside and outside the building. I got out of bed and slipped on a pair of pants and shoes.

"The fellow who lived in back of me, Leon Peris of Philadelphia, came to my room. His room was surrounded by flames. I took the mattress from my window seat and threw it out the window. I jumped from the second-story window ledge.

"The upper part of my body hit the mattress. My legs missed it." And, so it went. Every story was much the same. Sleep-drugged students awoke, pulled on some clothes, tried to get into flame-filled halls, then jumped. Some were lucky; some weren't.

Kenyon President Gordon K. Chalmers said it would take \$1,000,000 to replace "Old Kenyon." He declined to say what he thought started the fire.

Fire Chief Carroll D. White of Mount Vernon inclined toward the spark theory.

Just to be sure, Charles R. Lamonda, chief of the state arson bureau, planned to begin an investigation this afternoon.

The arson chief will have little to work with. The building where President Rutherford B. Hayes roomed while a student at Kenyon was a shell.

Campus life was as nearly normal as possible today. Students walked to the "Great Hall," where in the old English tradition the students dine in front of the President's high table.

The college, principally endowed at the beginning by Lord Kenyon and Lord Gamier of England, stands in aged quietness atop a rolling hill five miles east of Mount Vernon in Central Ohio.

Enrollment before the week-end tragedy was 550—about four times the prewar student population.

Students seriously injured and treated or confined at the college infirmary included:

Edward H. Stansfield, Jr., of Akron.
Stanley Jackson of Steubenville. An unidentified student treated and released.

Richard Furbee of Marietta.
Most of the students confined to the college infirmary are suffering from shock or minor lacerations.

Move To Increase
Cleveland Mayor Pay
CLEVELAND, Feb. 28—The citizens league here has started a move to increase the salary of Cleveland's mayor from \$15,000 to \$25,000 annually and extend his term of office from two to four years.

It will ask city council to pass legislation to have the proposal placed on the November ballot.

A statement from the group said the \$15,000 figure was far too little for the head of a city that now has a budget of \$122,000,000 annually.

Mercy Hospital Head
Nurse Dies Suddenly
CANTON, Feb. 28—(AP)—Sister Mary Euphrasia, 67, superintendent of Mercy hospital here since 1943, died yesterday. Born Mary Clement in Toledo, she was a member of the first graduating class of nurses at Providence hospital, Sandusky, in 1907. Later she directed the school of nursing there. She came to Mercy hospital in 1926.

Disputes Will
CLEVELAND, Feb. 28—Russell B. Mann, 35, stationed with the U. S. Navy in Alaska, has filed a suit to contest the will of the late Auerne S. Mann into whose home he was brought at seven years of age as an adopted son.

Mann, eccentric Cleveland Heights attorney, died last April at 73, leaving an estate valued at \$116,932. His son, who was bequeathed \$5,000 in bonds, claims Mann was not competent to make the will.

such programs, John Curie, finance director of the City of Akron and the Cleveland Trust Co. to secure details on the proper procedure.

In all cases the issuances of mortgage revenue bond has been recommended and each source contacted has recommended "the employment of an engineering firm of national reputation" in order to assure the proper sale of bonds when issued.

Considerable discussion was given to the engineering phase of the program Saturday and it was decided by both council and the Civic committee that Barckhoff and his firm of engineers meet the required qualifications.

In addition it was pointed out that by employing Barckhoff, who has been familiar with Salem's water problem for more than 20 years, the city would be exacting a considerable saving in engineering costs.

The fee asked by Barckhoff is considerably under what would be considered normal for an outside firm. Additional engineering and supervision costs will be cut, too.

The meeting Saturday was very productive. It achieved, P. H. Wilson said, what the Civic committee had been seeking.

Wilson expressed the complete willingness of the Civic committee to aid the program to completion "in any manner that we can."

Koenreich was emphatic in expressing council's appreciation to the committee for its aid. He said that councilmen were particularly interested in securing the Civic group's approval and support as they could not be sure that the same council would be "around to finish the program and wanted to know that the committee would be in on the ground floor."

In all the meeting produced these clarifications:

1) A detailed report on a proposed change of source.

2) The whole-hearted support of the Civic committee to the steps planned by council.

3) Assurance that the employment of the Barckhoff firm would not hinder the city's engineer's work on other projects undertaken by the city.

4) Complete understanding that the employment of Barckhoff will not hinder the city's engineer's work on other projects undertaken by the city.

5) A speeded-up program to achieve adequate water for Salem.

Cloak And Dagger Corps Living In Clover Again

By ROBERT HAEGER
United Press Staff Correspondent
FRANKFURT, Germany (UP)—The "good old days" are returning for the U.S. Army's counter-intelligence corps in Germany.

The CIC is out of Military Governor Gen. Lucius D. Clay's doghouse. Once again, its members are

swanking it in civilian clothes and living in private houses.

Their return to Clay's good graces has proceeded at almost the same pace that American-Russian relations have worsened. For the CIC is charged with smashing espionage and subversion within the Army and the area under its control.

During the war and immediately afterward, CIC agents lived high, wide and handsome while going about the business of sticking thousands of wanted Nazis into jail. They hid their rank beneath civilian clothes.

Living Too Well

When Clay took over command in Germany in 1947, he became convinced after a series of inspection trips that the CIC boys were living too well. Corporals and privates in multi had buffed both German and Army officers and set themselves up in comfortable villas.

In several cases Clay's surprise visits turned up fraudulently living comfortably with agents. A War Department investigator from Washington reported similar laxity. When Maj. Gen. Robert L. Walsh took over Clay's intelligence report, he and his chief agreed on a clamp-down.

They ordered the CIC into uniform, including rank insignia, and moved agents out of their mansions and into Army barracks. But even Clay admitted at the time he had no fault to find with the CIC's work.

He conceded that the corps had smashed every undercover threat to American security in Germany "and a few more that never came true besides."

Restrictions Eased

But with the start of the Soviet blockade of Berlin and the gradual worsening of American-Soviet relations in Germany, there began a slow easing of the restrictions.

Now about half of the CIC men are back in civilian clothes. Only clerks and office workers still wear uniforms. In some American zone cities, agents have persuaded post commanders that private houses can be classified as military barracks, so far as the CIC is concerned.

Working in regular Army barracks, the agents argued, handicapped them in getting information.

Many agents have had to be shifted to other areas. They mostly were low-ranking enlisted men who found important civilians were too rank-conscious when agents had to don uniforms and refused them information.

Tax Collections Drop

COLUMBUS, Feb. 28 — (INS)—The weekly report of sales of prepaid tax receipts in Ohio showed a continued reduction in collections today.

For the week ending Feb. 12, collections totalled \$1,765,561, which was \$93,593 lower than in the same period a year ago.

Collections to date showed a decrease of \$765,060 from the same date in 1948. Collections to date this year were \$11,112,282 and were \$11,877,342 in 1948.

GRANGES

Garfield

A meeting of Garfield grange was held in the hall Wednesday evening and Robert Morrow obligated Robert Hands, Ted Lofland, Esther Lofland, Robert Lofland and Carrie Doyle in the first and second degrees.

Robert Morrow, Paul Sommer, Ellis Steer and Mrs. Robert Morrow were appointed to the memorial committee.

The third and fourth degree work will be exemplified March 23 by Garfield degree team.

Meetings announced were: A supper on April 21; Dramatics club on March 3 in the hall.

A movie on "Safety" will be shown by the Ohio Public Service company at the meeting March 9, and a penny supper will be served by the Juvenile grange. It was decided to have a party for Garfield young people and friends at 8 p. m. March 11. The home economic com-

mittee of the grange will be in charge.

Mrs. G. R. Morton won the attendance prize.

The lecture hour consisted of the group singing "Columbia," and a description of the last will and testament of George Washington by Mrs. Ethel Gibbons. A supper was served honoring members having birthdays in the last six months.

Butler

A program on "Safety," in charge of Mrs. Homer Mountz and Mrs. Joseph Ward, will feature a meeting of Butler grange Wednesday evening, March 9.

Two applications were received for membership at last week's session.

The charter was draped in memory of the late Harvey Mountz, who had been a member for 59 years.

Joseph Vogelhuber, master; Mrs. Joseph Vogelhuber, lecturer, and Mrs. C. L. Brown, chairman of the Home economics committee, gave a report of the recent officers conference at Mt. Nebo grange.

Legislative Agent G. E. Walton gave a report on the activities of his committee.

A county ritual refresher meeting will be held at Butler grange hall March 22. Mile Branch grange officers will put on the work.

Plans were made to start work on

the basement and redecorate the dining room.

The program included these numbers:

Reading, "Life of George Washington," Mrs. Brown; music, Mrs. Norman Hartsough; riddles, Mrs. Camille Wood; stunt, Mrs. John Vogelhuber.

The banquet given by the losers in a contest conducted by the grange was well attended.

WINONA

The Women's Society of Christian Service met in the home of President Mrs. Willard Cope Wednesday.

The members will count tax stamps in the morning. A coverdinner will be followed by a business meeting and program.

Mrs. Frank Fultz will use "Labor" as her topic.

There will be an all day sewing for the American Friends Service committee held at the home of Mrs. A. H. Oliphant Thursday.

Recent visitors in the Mr. and Mrs. Lon Buraw home were Mr.

and Mrs. arl Buraw of north of Salem.

Pfc. Richard Stoffer of Fort Knox, Ky., called on friends in this community. He has been visiting his brother and wife, Mr. and Mrs. Charles Stoffer of near Leetonia. He will be transferred to St. Louis, Mo., soon.

Wednesday evening dinner guests in the O. F. Sidwell home were Mr. and Mrs. Raymond Stanley and David of Middleton and Mrs. Stanley's brother Stewart Starr of New Market, Canada.

Mr. and Mrs. Rudy Drotleff and daughter were recent callers of Mr. and Mrs. Lon Buraw.

Mrs. Olive Hall is spending a few

days with her son and wife, Mr. and Mrs. Lindley Hall of Salem.

Mrs. Anna Evans is now in Akron where she will spend sometime with relatives.

Sidwell's On Trip

Mrs. O. F. Sidwell and son Harold left Thursday for Wilmington where they visit a Mr. and Mrs. Bob S. Earley. They also visited Mr. and Mrs. Wilson Sidwell, Lexington R. R. enroute, and spent the

weekend at the Friends Boarding school at Barnesville and attended the Friends Conference there on the 26th and 27th.

FARM NEWS

At the annual election of officers of the Columbiana and Mahoning County Potato Growers association, held Thursday evening at the Columbiana Farm Bureau office, officers chosen to serve another term include:

Albert Agnew, Youngstown, president; Ben Weingart, Leetonia, vice president, and A. W. Andrich, Leetonia, secretary.

Directors are: John Doyle, R. D. 3, Salem; Sam Tritten, Lisbon; Ernest Stackhouse, Columbiana; C. T. Gundon, Columbiana; R. W. Kereich, R. D. 5, Salem; Howard Holloway, Columbiana and the officers.

Gundon made a report on the meeting of the Ohio Vegetable and Potato association. Floyd Lower, county extension agent, also attended the session.

The directors discussed the third annual potato tour on which members of the association view potato crops in Mahoning and Columbiana counties. The tour may be taken into outlying areas in August.

Westinghouse Cutback

MANSFIELD, Feb. 28 — The Mansfield plant of the Westinghouse Electric Co. announced today that it would employ 500 less workers during March than it did during February.

Plant officials said that the average employment during February was 7,700 but that during March it would be reduced to 7,200.

Modern Home Presents New Heating Puzzles

Two Main Problems Are Large Windows and Lack of Basements

Such trends in modern architecture as houses with picture windows from floor to ceiling, the one-story ranch type house and the basementless houses would have presented a heating problem a few years ago but today, thanks to innovations in equipment, are taken by the heating industry in its stride, says the Plumbing and Heating Industries Bureau.

New types of heating units which direct the heat to the lower or occupied portion of rooms, better control, and improvements in installation methods are among the new developments which enable heating industry today to provide comfort in houses which, only a few years ago, would have been classed as "hard to heat."

The problem of providing comfortable conditions in rooms with a large glass area has been solved partly by improved types of controls and partly by new developments in panel heating, baseboard heating equipment, radiators and conveyors.

Glass May Overheat
A large glass area presents a comfort problem. When the sun is not shining on the glass, discomfort sometimes results as the occupants of the room may be exposed to both the effect of the glass surface and to the cool air which often descends from large glass areas to the floor.

When the sun is shining on the glass, the room is likely to be overheated as compared with other rooms, unless the room is individually zoned with its own controls. When individually zoned, a separate thermostat regulates the heat input into the room so that, when the sun is shining on the glass, the heat input is reduced or if necessary, eliminated. On the other hand, when the room is shaded, the amount of heat going into the room is increased.

Radiant Heating Improved
Progress in radiant heating now enables engineers to design panels which will offset the effects of the cold from large glass areas. Another innovation in radiant heating, the radiant baseboard, permits the source of radiant heat to be in-

stalled immediately under the window so that the entire area is blanketed by both radiant and convected heat.

Modern ideas such as large glass areas could not have attained their current popularity without the recent progress in the heating industry.

Similarly the sprawling, ranch-type house covering a large ground area is no longer a problem for the heating industry. With forced circulation hot water, there is no difficulty in providing the most remote heat distributing unit with its correct amount of hot water. No rooms are hard to heat. Devices for balancing the heat flow to various circuits and zoning of rooms enables the modern heating and piping contractor to provide perfect comfort in all rooms.

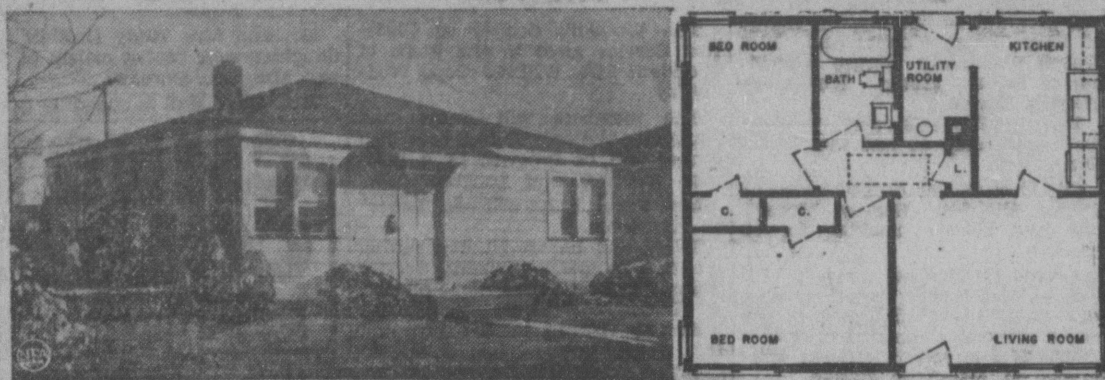

No Basement Needed
Not so many years ago the heating industry discouraged the construction of houses without a basement because there was no satisfactory method of heating the floor. Today radiant heating plus good insulation under the floor has combined to make basementless houses entirely practical.

The floors of basementless houses may be warmed either with coils in the floor or in the ceiling. Radiant baseboard panels have also been found entirely satisfactory for the heating of basementless houses. Research work at the University of Illinois has disclosed that radiant baseboards will not only warm the floor but will also warm the wall on which they are installed, thus providing the warm surfaces so essential for comfort.

New Metals Get Test

As new metals and alloys appear, they are immediately subjected to exhaustive tests by manufacturers of plumbing fittings to determine their possible field of usefulness. Much of this research work is concentrated on valves, the "heart" of modern plumbing. This research work has resulted in such improvements as today's raised valve seats, enclosed swivel disc washers, renewable valve seats, interchangeable parts and the reduction of friction on wearing parts.

6,500 (Or Less) Home Is Here--But You've Got to Revise Pre-War Dream

This \$6,500 house in Evansville, Ind., meets the typical "economy home" ideas of Howard Leland Smith, technical director of the FHA's Economy Housing Program. Its over-all dimensions are 28 by 24½ feet; its living room, 13½ by 11½; its biggest bedroom 12 feet 10 inches by nine feet.

By S. BURTON HEATH

NEW YORK (NEA)—Wherever you live, you ought to be able to buy a house for \$6,500 or less and pay for it at the rate of \$43.50 a month, or less. That payment should cover interest and amortization, taxes, and both mortgage and hazard insurance.

There is one hitch. You've got to revise your pre-war ideas of what a \$6,500 house is like.

"There are no white rabbits to be pulled out of a hat," says Howard Leland Smith, technical director of the government's Economy Housing Program.

"An economy house demands careful, intelligent planning. It demands conservation of materials, with room dimensions that will permit use of standard materials without much cutting on the job and without waste. It demands conservation of labor."

All over the United States, from coast to coast, in big towns and small, in every type of climate, private builders have been providing small homes for less than \$6,500. They have done it on their own, without government help.

Now, in an effort to encourage the building of homes that the average worker can afford, the Housing and Home Finance Agency and the Federal Housing Administration have studied the plans and features on a lot of such houses. NEA Service has analyzed the specifications. From these studies it is possible to say, quite positively, what you can count on getting for \$6,500 or less in a house of your own.

Selling prices, carrying charges and other details vary. The houses look a bit different on the outside and, at first glance, the arrangement of rooms seems different. But through them all, from \$3,995 in Ypsilanti, Mich., to \$6,000 in Baltimore or \$6,500 in Evansville, Ind.,

there is an astonishing sameness to what you can get in this minimum-price good house.

It will have four rooms. Probably it will be on one floor—though the \$4,300 house at Smithtown, L. I., has an attic that might be finished later into a couple of small rooms; and the Baltimore house, by changes that would add under \$1,000, could probably be given another room upstairs.

It will be a frame house, conventional in appearance, built on the site. It will have no basement. It will have an asphalt roof in solid or blended color, fire resistant and economical. Exterior walls will consist of gypsum board or wood sheathing over wood studs, with either asbestos, or wood siding. Probably the interior walls will be of gypsum board, except for some plastering in the bathroom. There is a fair chance it will have insulation in the ceiling and walls.

The heating system will depend on climate, but in most cases it will be there, burning oil. There will be a gas or electric water heater with 20- or 30-gallon tank. Piping may be copper, steel or galvanized, and fixtures will be of enameled iron. There will be no refrigerator or range in the purchase price.

This is not a theoretical picture of a \$4,000 to \$6,500 house. It is a composite picture of what private builders actually provided during the late months of 1948 in the cities mentioned, plus Tucson, Ariz.; Columbia, S. C.; Jackson, Tenn.; South Whittier, Calif.

A remarkable feature of the study is the genuine similarity of the floor plans used independently by the eight contractors—none of whom had been briefed, so far as can be learned, by anybody or had talked it over with any of the others. By coincidence, this basic floor plan is almost identical with one that Smith had worked out as

a theoretical ideal, to give the most house for the least money.

The economy house is 24 feet wide and 24 feet to 28 feet long, a simple box divided into living room, two bedrooms, kitchen and bath. In climates where heating is necessary there is a utility room, stolen from the kitchen, for heating and hot water plants.

Kitchen and bathroom are back-to-back to save plumbing costs. Each builder seemed to find space for two clothes closets and one for linen.

The living rooms average 13½ feet by 12 feet eight inches; kitchens average 9½ feet by nine feet seven inches; bedrooms average 10 feet nine inches by 11 feet three inches.

All were built in groups, ranging from 13 in Evansville to 500 in Tucson. Neither location, size of development nor climate seems to measure the price. Carrying charges range from \$28.20 on the Ypsilanti house to \$43.50 in Tucson.

Hardwood Floors Are Adaptable To Decorative Plans

In planning a new home, interior decorating experts point out, one quality worth striving for is adaptability of the interior to style shifts and changes in decorative plans. Such adaptability enables the homeowner to vary her furnishings and color arrangements to conform with new modes or to effect seasonal or other changes as she desires.

Whether this quality is achieved often depends upon the type of materials used for certain basic features of a house. This is particularly true of such structural parts as the floor. Floors form an integral part of the decorative theme. Along with the walls and ceiling, they are among the most conspicuous features of a home interior. They play a leading role in determining attractiveness of rooms.

A flooring material that rates unusually high in adaptability, according to experts, is oak. Long famed for its extreme durability, it is being used on a wider scale than ever before.

More and more homemakers are taking advantage of the opportunity it affords to add charm and dignity to their rooms. This is

Editorial Warns Against Extreme National Housing

Washington lawmakers who would plunge the government into the housing program are warned in a Business Week editorial to profit from the experience of Britain's unsuccessful semisocialist housing venture.

Noting that President Truman had asked Congress to enact a law providing for one million low-rent public housing units in the next seven years, the editorial asks whether that much federal participation in housing is desirable, and necessary.

"There is general recognition that slums should be cleared and that decent housing should be provided for displaced persons in those areas," the article states. "But everybody dissatisfied with living quarters should not expect Uncle Sam to provide beautiful new homes. The great majority of people will still have to rely on new housing provided by private builders, private funds and private enterprise."

In reviewing the British program, the magazine says the government took over the housing problem in 1945 and its record so far has not been good. The goals established have not been reached and reports indicate that private builders have produced more permanent housing on their own, within their smaller allotment, than have the local authorities responsible for the greater part of the program.

First Aid For the Ailing House

By ROGER C. WHITMAN
Septic Tank Odor

Q—We have had our septic tank cleaned thoroughly, but there is still an odor coming from it. Is there any way of treating the ground over the tank that will check this condition?

A—If the condition was caused by the earth becoming soaked with sewage when the tank was overflowed and when it was cleaned, you might be able to eliminate the odor by sprinkling liberal quantities of chloride of lime over the area. Several such treatments may be necessary.

Water Pipe Noise

Q—During the last few weeks there is a loud noise in the water pipes every time the water is turned off. What is the cause?

A—A noise caused by turning off a faucet is usually due to the lack of an air cushion or else the present air cushion is "waterlogged." A good plumber can cure the trouble by installing a hammer absorbing unit.

Paint for Metal Ceiling

Q—I have a metal ceiling which has been painted with a water paint. Now I would like to repaint it but not with the same thing. We intended to use first a flat white and then an enamel paint. Someone said an enamel paint will crack off in the course of time. What would you advise?

A—If the water paint is one of the newer types, not an ordinary calcimine, you can give it a coat of varnish size and then paint it with one coat enamel undercoater and a coat of enamel. If the ceiling is in the kitchen, it first should be well cleaned off in order to remove every trace of grease. After rinsing, and if the paint is not peeling,

you then can repaint when ceiling is dry, as suggested. If the paint is peeling, all of it should be scraped off. When repainting, you can apply a metal primer, then the other paints. If the ceiling is not in the kitchen or bathroom, you can use a flat paint instead of enamel, if you wish.

Removing Brick Paint
Q—Would it be all right to use a blowtorch on brick walls to remove old paint? Would a first coat of aluminum paint brushed on the brick wall be all right to use when the finish coat is to be a light buff color? What would make a good flat coat for brick walls?

A—If you live in or near a large city, the brick can be cleaned by a contractor who does sandblast cleaning. You might also have the paint taken off with a blowtorch. This is a job for a professional painter. It usually is considered a difficult job to take all the paint out of the roughness of a brick surface. If you succeed in doing so, you would find a cement base containing a dampproofer a suitable finish for the masonry. But if the old paint does not come off readily, it would be best to repaint with a good oil base brick and cement paint. In that case you could use the aluminum paint and oil paint adapted to brickwork.

USE EXTRA CARE IN PAINT REMOVAL WITH BLOWTORCH

Householders planning to repaint their homes as part of the annual Clean-Up campaign are urged to use caution in removing the present coat of paint.

The National Board of Fire Underwriters points out that the following precautions should be taken if a blow-torch is used:

- 1.—The flame of the blow-torch should be directed toward rather than upward. This prevents flames from penetrating spaces beneath the clap boards.
- 2.—A garden hose should be attached to the nearest faucet and kept close at hand throughout the period of paint removal.
- 3.—The householder and the painter should make thorough inspections of the area involved immediately after each day's work is finished, and also the first thing the following morning. This is important because fires sometimes smolder within the walls under the clapboard out of sight. The painter should be constantly alert for any unusual heating of the wood.

New Faucet Controls Temperature of Water

A new faucet with two handles, one for temperature and the other for flow, represents a radical departure in design, says the Plumbing and Heating Industries Bureau. One handle controls the temperature of the water. It can be left at any desired setting and will regulate and maintain the temperature within 2 degrees. It eliminates the inconvenience of adjusting two handles to obtain the temperature wanted.

The other handle controls the volume or flow of water. Because only the amount of water is used which is actually needed, and since the temperature is closely controlled, savings are said to result in both water and in fuel to heat water.

Kitchen Space Saver

Kitchen space can be economized by installing an upholstered custom-built booth with a matching Formica table, it has been found.

The custom-made booths are said to cost no more than ready-made kitchen furniture. Advantages cited for the installation are beauty, comfort and convenience.

The tables are constructed according to the contour of the booth, with the legs centrally located so that the table can be pushed into the booth with the top extending over the seat. The booths are furnished in colors selected to satisfy individual tastes, built to fit the prescribed space, with hardwood framing, spring seat and soft padded backs.

Here Are The Six Methods To Insure Good Plumbing

Plumbing For Any House Discussed

Quantity, quality, good planning and good labor are some of the requirements for appropriate plumbing in the home. The Plumbing & Heating Industries Bureau outlines six of the most important requirements necessary to obtain good plumbing in any home.

The first essential for economy is good planning. Discuss the plumbing and heating with a contractor while the house is still in the blueprint stage. An experienced contractor will nearly always be able to offer suggestions that will save materials and labor.

While most plumbing and heating materials are now in fairly good supply, there is always danger of spot shortages and some kinds of pipe are still in short supply. The number of water closets, too, is still inadequate to meet the demand. Close coordination between the plumbing and heating contractor and the general contractor will insure an even flow of materials to the job as needed and will save money for the owner.

Budget scrimp? Why not postpone some of the work, say the second bathroom or the powder room. Plan the piping so that it is large enough to take care of future additions. You may even wish to have the piping run now to the future bathroom or powder room. Then later, when circumstances permit, the fixtures can be set in place and connected.

Automatic heating is ideal but if your budget will not permit it when the house is built, the wise thing to do is to buy an all-fuel boiler. This type of boiler is adaptable to any fuel. You may, if you wish, use the boiler for manual firing when you move into the house and then later, when circumstances permit, convert it to firing with a stoker, an oil burner or a gas conversion burner. Be sure your chimney is so constructed that it will handle any of the three fuels.

Money can be saved on piping and on labor by concentrating fixtures. Thus a bathroom on the second floor over a first floor powder room takes less piping. Or a bathroom or powder room backed against a kitchen sink offers certain economies. Or having the laundry tubs installed in the basement under the kitchen sink will save on piping.

It pays to buy quality materials and to have them installed by thoroughly competent workmen. The supervision of an experienced plumbing and heating contractor over all plumbing and heating work, too, is a short cut to economy and lasting satisfaction. If the strictest economy must be practiced, it is not wise to skimp either on the quality of the materials or on the supervision or the workmanship.

Brick Industry Has Best Year

The Structural Clay Products Industry enjoyed its greatest production year since 1930 during the past year. More than seven billion brick equivalents were turned out by the nation's brick and tile producers during 1948.

The output of brick alone was 16 percent greater than in 1947. Total brick production is estimated at 5,845,000,000 brick by the Bureau of Census, U.S. Department of Commerce.

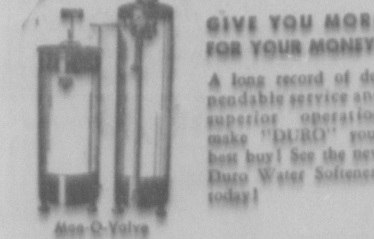

Output of hollow facing tile, glazed and unglazed, reached an all-time peak of 335 million brick equivalents. This marks an increase in production of 12 percent over 1947 for this relatively new structural masonry material.

Other structural clay tile production continued up to 1947 levels, attaining an output of 1,261,000 tons of tile.

Approximately a billion more brick and tile units were produced in 1948 than in the year before. This increase in production was due to continued high demand for all types of masonry products in the record-breaking post-war construction period.

Despite these new production highs, demand remains constant and in many localities inventories are below average.

The 1949 clay products forecast is for continued record-breaking output, to meet public and private construction needs. Approximately 50 percent of the current brick and tile production is available to the building industry in the new modular sizes, which offer opportunities for construction economy.

Unfinished Pieces Help Stretch Those Small Home Budget Dollars

Unfinished furniture can be a source of inspiration to budget-minded young couples furnishing their first homes. It can also be the answer for the growing family, equally budget-minded yet needing extra storage space and furniture.

Variety Available
It is possible today to select unfinished furniture with which to completely furnish a home, except for mattresses, bedsprings and comfortable upholstered chairs. Some one very clever might even use wedding to contrive substitutes for upholstered chairs, but mattresses and bedsprings, at least, still have to be bought ready for use.

Everything that goes with the mattress and bedspring can be bought in the unfinished furniture department, however. It may be a headboard, a bedframe, bedside tables or a combination of frame, bookcases and shelves in which the mattress fits to serve as a leisure-time lounge.

Select a la Carte
As for storage pieces, tables, chairs, chests, desks, cabinets and bookcases—there's an almost unlimited variety from which to choose. The fun of buying unfinished furniture is that it is possible to pick and choose just the right to combine—for instance storage units, bookshelves and a desk to fit

a certain wall—and then to finish all the pieces to match exactly and to blend with the individual decorative scheme. They can be given unusual color finishes, such as red and black lacquer, or silvery gray exterior with midnight blue interior. Or a beautiful blond modern or traditional dark finish might be preferred.

Prices of unfinished furniture are moderate because most of the hard work is yet to be done. It's worth it, however, not just to save money, but for the pride in doing well a careful, painstaking job. Good craftsmanship is always a source of satisfaction.

Finishing Is Easy
Instructions for finishing the furniture can be obtained from the store which sells it or from the paint and varnish dealer. A valuable lesson might be gained from the example of the Chinese lacquer workers, who make the beautiful chests, boxes and other art pieces. The many coats of lacquer on each piece are applied in a boat, far out from land, so that as the finish dries it is not marred by the smallest piece of dust. The home craftsman cannot be that particular, but the more careful he is to keep the finish smooth, sandpapering before every coat of stain, paint or varnish, the more beautiful the finished product will be.

Hot Stuff in the Refrigerator Field

Ideal for small apartments is this unit, combining a refrigerator with a four-burner stove. The four-cubic-foot refrigerator and stove, which can be equipped with either gas or electric burners, is produced in Los Angeles. Pat Reeber pours a glass of cold milk, but she can change her mind and have hot coffee just by reaching up to the stove.

Name Planning Judges

Judges chosen to determine the best neighborhood planning in America have been announced by the National Association of Home Builders.

The jury will pass upon the regional winners submitted in the 1948 Neighborhood Development Contest conducted by the NAHB. Chairman of the national awards panel is Major General U. S. Grant III.

More Homes Get Gas

The unusually mild weather experienced this winter will give gas house heating to a few people a little earlier than was previously thought possible.

The Natural Gas Co. of West Virginia, for the first time since last

spring, is now approving a small group of applications to install gas house heating equipment in residential buildings. These applications were filed with the gas company before June 1, 1948.

EXTRA FEATURES IN NEW SALEM HOME

Entirely modern without being extreme and tastefully decorated and furnished making it one of the most complete homes in Salem, the home of Louis Slaby at 394 W. Tenth st. has acquired that "lived-in" look to round out its attractiveness.

The Slabys moved into their new home last year. It has seven rooms and a finished third floor. A tour of the home shows that every detail was carefully planned.

The exterior is brick on heavy insulation. Lot dimensions are 60 feet wide by 150 feet deep, providing adequate yard area for spring landscaping. The house is 30 feet by 32 feet, plus a sun room behind the kitchen.

Rather than constructing the basement as a necessary evil, the Slaby basement is attractive and livable. It is finished with smooth tile and contains five rooms. An oil furnace is inclosed in one division. There Richard, 7, constructs bird houses with the assistance of brother James, 2.

An enclosed recreation room extends the width of the house. It contains a brick fireplace and other

recreation facilities. The flooring is an asphalt product. The basement also has separate fruit and laundry rooms and a shower room.

The living rooms boast a large sandstone fireplace, topped by a wide mirror at one end. The room is finished in a swirl plaster tinted pale green on the walls and near-white on the ceiling. The large kitchen is partially tiled and besides conventional stove and refrigerator, a dishwasher and disposal unit has been installed.

Three bedrooms and bath are on the second floor. Special furnishings were selected for some rooms, including the bedrooms of the two girls, Betty 11 and Joan 10.

According to Slaby, special thought was given to drainage and pipe problems. Extra-large tile and basin have been installed and copper pipe was used throughout the house.

He did much of the mason work himself as he was formerly employed in this work. He directed the house construction personally. Slaby said that the cost of the home and furnishings would fall into the \$30,000 bracket.

Use Right Size Roofing Nails

Roofing nails which penetrate all the way through the boards of the roof deck can be a distinct moisture hazard even though water does not enter through the nail holes.

Points of the nails projecting into the attic usually will be the same temperature as the nail heads outside. Sometimes during the winter, the temperature of the nail points will be lower than the temperature of the attic.

The nail points can collect frost on cold nights. The warmth of the following day will change the frost to water which can seep into the ceilings and walls of the house, cracking plaster and staining wallpaper and paint.

A remedy for this condition is to ventilate the attic so that outside and inside temperatures will be more nearly the same.

Proper length nails are considered essential to correct application of fire-resistant asphalt roofing, and correct application is necessary if the roofing material is to give the full service of which it is capable.

Nails should be long enough to penetrate at least 1/2 inch into the deck lumber. Asphalt shingles frequently are used for roofing without removing the old roofing material and in this case, of course, nails must be longer than those used in building a completely new roof.

Expert Says Home Cost Will Remain Firm In '49

No drop in housing prices is in sight as a result of the decline in food and clothing, Frank W. Cortright, executive vice president of the National Association of Home Builders, believes.

Referring to government reports which show that market values of many nondurable items have declined, Mr. Cortright explained a house is an entirely different proposition.

"There is a time lag between the original manufacture of many materials that go into the building of a home and the final sale or occupancy," he said. "We cannot view new homes like apples and oranges. The market is far more stable and based on hundreds of types of durable goods which do not shift around so rapidly in price as, for example, food."

"Furthermore, the present market price of homes in most areas, though higher than before the war, is not inflated as in the case of money goods."

Modern Solar House
The modern solar house has been devised to shield the interior from summer heat, admitting light, and at the same time admitting both light and heat in the winter when the sun is at the lower meridian.

Insulating Lath Recommended For Masonry Walls

Builders of masonry homes should give particular attention to the matter of insulation, according to heating engineers. Masonry walls, while strong and durable, have less resistance to heat passage than those of frame construction. Moreover, not all types of insulation can be used conveniently with masonry construction.

One answer to the problem, the Insulation Board Institute reports, is to use a plaster base which is also an insulation. Insulating board lath is such a material and it can be applied easily to masonry walls over furring strips.

As an example of the effectiveness of this type of insulation, the Institute points out that the addition of insulating board lath and plaster to an eight-inch solid brick wall reduces the heat passage through it by 56 percent. In the case of a 12-inch solid brick wall a similar treatment cuts the heat loss by 47 per cent.

Insulating board lath is made of wood, cane or other natural fibers, formed into rigid units 18 inches wide and four feet long. It provides a continuous solid plaster base for all types of interior wall surfaces. The bond between lath and plaster is about two hundred times the weight of the plaster. Laboratory tests show it takes a direct perpendicular pull in excess of 600-pounds per square foot to break plaster loose from the lath.

Lath of the insulation type, of course, is equally suitable for use in frame and veneer construction, where it is nailed directly to studs and joists. In these constructions it can be used in combination with insulating board sheathing on the outside of the framing for even greater insulating efficiency.

The light weight of insulating lath makes for fast and easy application. In addition, the material has sound quieting properties which keep out street noises and reduce appreciably the communication of noise from one room to another.

Million Homes Are Erected In 1948

Private home builders added more than 1,000,000 new homes to the nation's supply in 1948, the National Association of Home Builders reports. This is well ahead of 1947's rapid rate when home builders passed all postwar production records to that time. The million-homes feat is the "greatest building achievement ever recorded in the residential field."

The basic figure used in computing the national total for housing construction is the U.S. Bureau of Labor Statistics report on housing "starts." This data, admittedly conservative in nature, is obtained in urban and rural nonfarm areas where satisfactory information can be gathered. However, these government figures do not include farm construction, conversions and housing starts from some areas.

On the basis of facts turned in to the National Association of Home Builders whose members, it is estimated, build 80 per cent of American homes, a careful projection is made from the BLS figures to develop an overall total of residential housing production for the country.

Building Slows Up In California

Several "straws in the wind" indicate a coming buyer's market in the home building field, according to Practical Builder, trade magazine.

Editors discovered many new developments worth watching in a tour of the country, the publication reported.

In California, for example, it was learned that sub-contractors, a very important segment of the housing industry, were looking for business. Practical Builder editors say that the same situation is not evident in eastern building centers. The article points out, however, that California long has been a weather vane, in that changes have occurred there which later spread over the rest of the nation.

Generally, the productivity of labor is increasing everywhere, it was stated in the article.

Low Home Costs With Simple Plan

Prospective home builders seeking means of keeping construction costs at a minimum can do so by employing simplicity of design, using economical materials and omitting certain non-essentials.

Architects point out that all this usually can be done without sacrifice of basic soundness or attractiveness. Simplified design permits numerous savings in construction costs. Examples of such economies are found in simple, straight-line roofs, and division of a house into a few multi-purpose rooms instead of a greater number of small rooms. Another point of saving is designing a dwelling with an eye toward more uniformity in sizes of windows, doors and other millwork.

Further economies can be affected by using materials in which there is a minimum of waste and which can be applied without undue difficulties. One should be careful, however, to select materials which are durable and efficient.

For such structural parts as the flooring, for example, oak and other hardwoods can be installed rapidly with little cutting, fitting or waste. Attractive and unusually serviceable, they ordinarily last the life of a house.

A considerable saving also can be gained in construction by having a first-floor utility room rather than a basement.

Family Relations Are Still Suffering From Effects of War

CINCINNATI, O.—(UP)—The war-born problem of the absent father who returned to find his child growing up still is facing many American households.

Dr. Ada Hart Arlitt, professor of psychology, child care and training at the University of Cincinnati, says it is a problem that can be met only with tact, patience and love.

The problem, Dr. Arlitt explains, is of two classifications:

1. Reconciliation of the veteran with his child who was born while he was away.

2. Reconciliation of the veteran with his children who passed from babyhood to early childhood during his absence.

Adjustment Missing

"When the babies were born while their fathers were away and were two or more years old when their fathers came back, neither the father nor the child had passed through the stages necessary to an adjustment," Dr. Arlitt said.

"The father had an ideal picture to which the baby refused to live up. The baby often had an ideal picture, too, which did not fit in with the behavior of the real father."

The mothers became upset and worried when the fathers did not accept the children as perfect or nearly so. Arguments followed, in many cases leading to separation or divorce.

The situation with children who

age three or more years while their fathers were away was equally or sometimes even more difficult, the psychologist continued.

Relations Changed

"When their fathers left," she said, "they were little, chubby, dependent children, cute to lift up and play with, and obedient."

"When their fathers returned, these children were no longer three but six or seven, and they showed the characteristics of that age. Their fathers' pictures of them had not changed, so when they first saw their children, shock was mingled with surprise."

Dr. Arlitt said some men had difficulty making the adjustment. The children, who had looked forward to their homecoming, were disappointed and sometimes seriously upset emotionally by their fathers' attitude.

"Both boys and girls must be accepted completely and loved by their fathers between the ages of six and nine," Dr. Arlitt added. "This is the time when the father becomes the most important member of the family, so even partial rejection is very hard for these children to bear."

Department Store Sales

CLEVELAND, Feb. 28.—(UP)—Last week's decline in fourth district department store sales was the largest since the week ending Nov. 13, it was disclosed today.

Last week's dollar sales were six per cent below the corresponding week of 1948 and five per cent below the previous week, the Federal Reserve bank of Cleveland reported.

On the whole, the bank said, the sales performance last week was the most unfavorable of any week so far this year when seasonal factors are considered.

Cleveland showed the smallest decline, with sales down three per cent from last year, while Akron had the largest at 14 per cent.

Donates Skin to Plucky Boy

Michael Rector, 4, who was burned over 70 per cent of his body when set afire by playmates three months ago, thanks his new friend and skin donor, Robert J. Denyer, 23, in a Washington hospital. Denyer, a naval aviation machinist's mate, took a week's leave from duties to enter the hospital and give the boy his fourth skin graft, because "that kid is so darn plucky."

Democracy Primer Tells Japanese What U. S. Means By That Term

TOKYO.—(UP)—The first one-and-a-half million of a contemplated four-and-a-half million books, telling the Japanese people what the occupying authorities mean when they refer to "democracy," are now coming off the presses.

Titled "Primer of Democracy," the book suggests to the Japanese especially the younger generation, "what democracy is, and what it is not," according to Dr. Howard Bell, Gen. MacArthur's social studies consultant, who reviewed the text.

The authors were a committee of 12 Japanese scholars drawn from the fields of education, journalism, political science, economics and history. Selected by the Japanese ministry of education, they worked in close cooperation for 18 months, each specializing on his own phase of the subject of democracy.

Demand Grows

Written in two volumes totaling some 450 pages, the primer originally was planned for use by students in a single high school year. But as Japanese and American educators reviewed pre-publication chapters, demands mounted for copies of the book.

Mimeographed translations will be furnished to military government education officer and other occupation officials concerned with educating the Japanese.

Present plans of the ministry call for distribution to pupils in at least two, and probably three, years of high school. It also will be made available to all public school teachers in Japan, adult education groups, citizens public halls and other Japanese organizations even remotely concerned with political or social education.

One major Japanese newspaper already has asked for rights to serialize the book in condensed form and a second is expected to request

publication rights. In addition, the Broadcasting Corporation of Japan soon will begin a series of weekly broadcasts airing the book in a combined narrative-dramatized form.

Arguments Met

The book does not stop with pointing out the advantages of living in a democracy. It also sets forth the criticisms that supporters of totalitarianism have leveled against democracy, and lets the reader contemplate whether the purported disadvantages are as uncomfortable as those of an autocracy.

Dictatorship criticizes democracy for its "individualism," the concluding chapter of Volume I points out.

"Democracy respects all men equally as individuals, and guarantees the freedom of each individual in so far as the exercise of this freedom of others," the chapter continues. "(Dictators) maintain that what should be valued is not the individual, but the entire state. . . . Dictatorship denounces the method of majority rule employed by democracy."

ITCH

Don't Suffer Another Minute

No matter how long you have suffered or how many remedies you have tried for the itching of psoriasis, eczema, infections, athlete's foot or other externally caused skin irritations—you can get wonderful results from the use of WONDER SALVE—a war time discovery. Protests Costs of Tax Refunding Machinery

WASHINGTON, Feb. 28.—Rep. J. Harry McGregor (R) of Ohio said today that the government is spending too much money sending out those income tax refunds and he will introduce a bill Monday to reduce the rate of withholding tax made on wages.

He said his bill would request a reduction on salaries from 15 to 10 per cent.

The deductions are made by employers and turned over to the government as current income-tax payments by their employees. The percentage rate is applied after allowance for exemptions.

"My bill won't change the tax structure at all," Rep. McGregor said. "Everybody's tax will remain the same, but the government will be relieved of the tremendous paper work job it now must do and the interest it must pay on the refunds."

Will Change Equipment

CANTON, Feb. 28.—Two large industrial plants here have agreed to aid a smoke abatement program by making changes in their operation and equipment. H. B. Lammers, Cincinnati smoke expert, said T. R. Baker Roller Bearing Co. and the Republic Steel Corp. will install additional air jets over fire beds to aid combustion and eliminate a large portion of the smoke.

Salemasquers At High School Present Play

At a recent meeting of the Salemasquers, High school dramatic organization, a one-act play was presented.

The plot of "Echo" is built around the effect on the conscience of a father, Bob Askey, who has driven his son, Darrell Askey, to violence. The part of the mother was portrayed by Nina Snyder. Helen Schuler was cast as the daughter. Dana Rice directed the presentation.

Jerry Rice, president of the Salemasquers and vice president of the Theatians, was recently chosen as the best all-around Theatians of the year.

The honor goes to seniors only. They must have served on at least three different kinds of stage production committees besides acting in at least two major high school plays.

Miss Irene Weeks, dramatics instructor, announces that committees are being selected for the Junior class play which will be presented March 31 and April 1.

DAMASCUS

Members of the Damascus W. C. T. U. met with Mrs. T. L. Stacy Monday afternoon when Mrs. Ralph Steer conducted the worship service.

Mrs. Julia Greenstein, president of the Salem W. C. T. U., and Mrs. Mary Copeland, treasurer of the Salem Union, met with the group Monday and the two unions will hold their meetings together every three months. Twelve Damascus members were present.

Several new members were reported.

The program in charge of Mrs. Wendell Santee and Mrs. James Penrose consisted of the reading of a booklet "Total Abstinence is a Good Rule"; a whistling solo and a poem, "Conscience" by Edgar A. Guest presented by Mrs. Santee; article, "The Foreigner in Our Midst" by Mrs. Penrose.

Mrs. Dwight Phillips and Mrs. Kenneth Phillips will be leaders of May 16.

Plans were made for the Spring party March 23 when members of the Magazine club met with Mrs. Ralph Steer Wednesday afternoon. Members will entertain their husbands and dinner will be served by members of Mile Branch grange.

The place and menu committee is composed of Mrs. Clyde Baker and Mrs. W. J. West. The entertainment will be furnished by Mrs. John Ralburn and Mrs. C. E. Hobson.

The response to roll call Wednesday was telling an anecdote on Lincoln or Washington.

A review of the book, "The Plague and I," was presented by Mrs. Ervin Coleman.

A new television set has been installed in the Goshen Union High school.

The Rebecca Coleman Missionary circle of the Friends church will meet with Mrs. Donald Phillips Wednesday evening.

The Mothers club of the Damascus Grade school will meet in the school house Wednesday after school.

Rev. and Mrs. Roy Dunn of Marshallville were supper guests of her parents, Mr. and Mrs. Ralph Steer Thursday evening and called on Mrs. T. L. Stacy and Mr. and Mrs. Kenneth Cobbs.
